

Our ref: *Naylor-Perforated gas duct UKCA Marking*

1st March 2023

To whom it may concern:

I refer to *UKCA Marking Requirements for Naylor perforated gas duct*.

The Construction Products (amendment etc.) (EU Exit) Regulations (CPR) require manufacturers to provide a Declaration of Performance (DoP) and affix a UKCA mark to products that are made in compliance with a Designated Standard, or where a UK Technical Assessment (UKTA) has been issued to cover that product.

Naylor perforated gas duct complies with the requirements of BS 4962:1989. This standard is not a designated standard, and no UKTA has been issued to cover the product.

As a result, we do not affix a UKCA mark and do not supply a DoP for the product.

Yours sincerely
